

WALL & CEILING LINER PANELS

Perfect for Non-Food Contact Surfaces

Here are the products for your next project, from wall & ceiling coverings to pre-hung doors and trims. All available in a modern clean-looking material, made of extruded polymers. Installer-friendly design makes installation easy with a few basic tools. Extrutech products create an instant, clean, durable finish to any area.

P2400 - 24" Panel

Wall Liner panels manufactured by Extrutech Plastics are ideal for high moisture areas. Its bright white surface quickly sheds water. Made with 100% virgin exterior grade PVC, the 24" wide P2400 wall panel, has a tongue and groove design with a nailing fin along one side that makes installation quick and easy, with no exposed fasteners. All panels are cut to customers requested length, up to 20 feet. They are easy to clean, durable, never need paint and will not rot or rust. Panels are 100% recyclable and do not support mold or mildew per ASTM D3273 and D3274. CSI- Master Format # 06600 (06 64 00). Ten year warranty. Meets ASTM E84-05 and CAN/ULC S102.2-03 Class A for smoke and fire.
