

EXTRUTECH Form Wall System

Perfect for Dairy Robot Rooms

P824 PANEL

6" and 8" Thick Panels
U.S. Patent 8,677,713
Canadian Patent 2833,490
Mexican Patent 344,648

Robotic Milking Room Using Extrutech FORM Panels

Robotic Milking Room Using Extrutech FORM Panels

Extrutech FORM System is a **Stay-In-Place Concrete Form** for poured walls. It is a quick setup, pre-cut system, that provides a smooth, non-porous, easy-to-clean, finished concrete structural wall in 6" and 8" thick forms. Insulated panels are also available. Ideal for areas where moisture can be a problem, making the Extrutech FORM System a labor saver for both the contractor and the owner.

Our durable panels are two feet wide, extruded to desired length based on building dimensions, and snap together quickly for easy installation. They provide a non-porous, pre-finished, bright white surface on both sides, reducing both installation and finishing time, while providing an easy-to-clean, sanitary, solid, load-bearing wall. Your building will be ready for trusses, windows, and doors once the concrete has cured.

EXTRUTECH Form Wall System

Features and Details

The Extrutech FORM offers a clean, durable, long lasting, energy efficient, load bearing system, designed for ease of sanitation and maintenance. The FORM is 24" wide and snaps together for quick installation. Provides a pre-finished, easy-to-clean, sanitary surface on both sides of the walls.

Advantages

- Quick installation
- Perfect for high moisture areas, where corrosion can be a problem
- Two foot wide panels, - fewer seams
- Custom cut panel kits to 20' feet long
- Snaps together for quick installation
- Double spline, E-Locking System
- Use standard rebar reinforcing methods
- Water proof - corrosion proof
- Panels will not rust, rot, or flake
- Resists mold, mildew, bacteria growth
- Low V.O.C. Panels with honeycomb interior walls for maximum panel stability
- Protective film that's easy to peel off and keeps panels clean during construction
- ISO 9001:2015 and ICC-ES Certified

Robotic Milking Room using Extrutech FORM Walls and Ceiling Liner Panels

Recommended Uses

For any area that requires easy-to-clean concrete structural load bearing walls such as:

- | | | |
|-----------------|------------------------------|----------------------------------|
| Car Washes | Cold Storage / Tanks | Cheese Plants |
| Dairy Barns | Commercial / Industrial | Bottling Plants |
| Milking Parlors | Clean Rooms / Laboratories | Residential / Storm Shelters |
| Food Processing | Waste Water Treatment Plants | Government Facilities / Military |
