EXTRUTECH PLASTICS INC. ANNOUNCES “POLY BOARD-AM”, PANELS FOR WALLS AND CEILINGS NOW AVAILABLE WITH ANTIMICROBIAL TECHNOLOGY

Manitowoc, WI, April 2020 – Extrutech Plastics has begun production of Poly Board-AM for wall and ceiling panels, doors, concrete forms, clean rooms and partition walls utilizing state of the art technology to enhance our products with Antimicrobial additives.

In a world where germs and viruses come out of nowhere and threaten our life as we know it, Extrutech Plastics realized a need for a family of products that our customers can rely on to provide an additional layer of safety and security for their employees and the food and health care products that they produce every day.

These Poly Board-AM products made by Extrutech Plastics will offer a higher level of confidence to our many customers in the Food Processing, Beverage, Agricultural, Pharmaceutical, Cannabis, Animal Care, Wellness, and Health Care industries throughout North America. The mission of Extrutech is to provide superior, safe, high quality construction products that are 100% American made and back them up with outstanding customer service.

Extrutech Plastics has been a supplier of high quality, innovative construction products since 1992. We manufacture all of our products in Manitowoc, WI, utilizing only American made raw materials. Extrutech Plastics is a certified ISO 9001-2015 QMS manufacturer and designated supplier to the “Buy American Plan” under the US Government. Call us at 888-818-0118 or visit our website to learn more about Extrutech Plastics and the Poly Board-AM products. Thank you. END
