### EXTRUTECH PLASTICS, INC. Announces Several New Products for 2017

Manitowoc, WI, May 1, 2017 – Extrutech Plastics Inc. has added several innovative new products to their ever-growing product offerings. To enhance our EFS-P624- 6” concrete form, we have added 5 new profiles to make corners and T- Wall intersections easier to assemble and load with rebar. Also available are the EFS-P824, Extrutech Form System for 8”, 10” and 12” concrete walls; the EFSI-P824i, Extrutech Form System for Insulated concrete walls; the P224-2.25” Wall Panel made for interior partition walls and clean rooms; and the P645 Angle Form connector for the construction of concrete circular and oval storage tanks, curved concrete walls or above and below ground swimming pools of all shapes.

These new profiles will greatly enhance our already extensive line of products for various construction markets, including Food Processing, Dairy & Agricultural Buildings, Car & Truck Washes and Clean Rooms. Our stable of products include the 12”, 16” and 24” wide wall and ceiling panels, suspended ceiling panels, clean rooms, partition walls, doors, concrete forms, numerous panel trims, cellular trims and boards. Our new trims include a [bullnose outside corner](#), [6” floor base](#), [2”x2”](#) and [3”x3”](#) 90 degree corners, and [double J-Ridge](#) trim. The panels are available in many colors, including black and our new wood grain, to further customize and showcase your facility to attract new customers.

All of our Extrutech products offer superior sanitary surfaces for ease of cleaning and sanitizing on a daily basis. The panels offer a bright white, high gloss, easy-to-clean, non-porous surface that resists damage, corrosion and brightens any work area for extra safety and security. These products are 100% waterproof and will not rust, rot, corrode, peel or discolor and are ideal for high moisture areas where daily sanitation is critical to the operation and health inspectors.

For the past 25 years, Extrutech Plastics has specialized in the manufacture of high quality, waterproof building components in Manitowoc, Wisconsin. Extrutech is a certified ISO 9001-2008 QMS manufacturer and a U.S. Government supplier. All products are made and serviced in the USA, by Americans, with only USA-made virgin materials. We offer a 15 year warranty. Call us at 888-818-0118 or visit our website ([www.epiplastics.com](http://www.epiplastics.com)) for more information or assistance.
